- a. Supplier bears responsibility for procuring authentic items and materials from Supplier's Supply Chain as required for Deliverables and shall ensure that Supplier's Supply Chain complies with the requirements of this Section. In addition the supplier must also comply with Aerospace Standard AS6174, Counterfeit Material: Assuring Acquisition of Authentic and Conforming Material and also AS5553, Counterfeit Electronic Parts; Avoidance, Detection, Mitigation, and Disposition. A "Counterfeit" part is an unlawful or unauthorized reproduction, substitution, or alteration that has been knowingly mismarked, misidentified, or otherwise misrepresented to be an authentic, unmodified part from the original manufacturer, or a source with the express written authority of the original manufacturer or a current design activity, including an authorized aftermarket manufacturer. Unlawful or unauthorized substitution includes used parts represented as new, or the false identification of grade, serial number, lot number, date code, or performance characteristics. Procurement or supply from other than the original manufacturer or authorized sources is prohibited without prior, written approval from Stein Seal. In addition, no substitutions may be made without prior, written approval from Stein Seal. Failure by Supplier to document material or item substitution or to identify that an item has been refurbished or remanufactured is considered to be fraud, and the material or item then becomes suspect/counterfeit.
- b. If Supplier becomes aware or suspects that a Deliverable contains suspect/Counterfeit parts or materials, Supplier shall promptly, but in no case later than ten (10) days from discovery, notify Stein Seal of affected Deliverables. Stein Seal, in turn, may also notify its Customer(s) and government representatives and reserves the right to withhold payment for the Deliverable(s) pending results of the investigation.
- c. If it is determined by Stein Seal that a suspect/Counterfeit part, or suspect/Counterfeit material, has been supplied, Stein Seal will impound the parts/material pending a decision on disposition. Notwithstanding any language or term to the contrary herein, Supplier shall promptly replace all such parts/material with parts/material acceptable to Stein Seal and shall be liable for all costs relating to the impoundment, removal, and replacement. The remedies contained in this Section are in addition to any remedies Stein Seal may have at law, equity or under other provisions herein. Stein Seal may also notify the applicable USG representatives and reserves the right to withhold payment for the parts/material pending results of the investigation.

34. Supplier Records

- a. All records are to be retained for the period required by applicable local, state and federal laws and regulations in the U.S. and, in the case of foreign operations, for all periods required by applicable law. Records, which provide evidence of conformity to requirements and the effective operation of the Supplier's quality management system, (e.g. Supplier test reports, inspection records), shall be maintained and remain legible, readily identifiable, retrievable and available to Stein Seal during performance of an Agreement and until the later of: (i) ten (10) years after final payment;
(ii) final resolution of any dispute involving the Deliverables delivered hereunder; (iii) the latest time required by an Agreement; (iv) the latest time required by applicable laws and regulations; (v) the latest time required by Stein Seal's

quality requirements effective as of the date of this Agreement; or (vi) as otherwise directed by Stein Seal unless otherwise specified in this Agreement (collectively the “Retention Period”). The Supplier shall not discard or destroy records following the Retention Period without written approval from Stein Seal. Any documents requested by Stein Seal will be provided by the supplier within 24 hours -.

- b. If Stein Seal has a reasonable suspicion that the provisions of this Agreement have been violated based on identifiable evidence or information, Stein Seal and its authorized representatives will have the right to audit, examine and make copies of all records that relate to this Agreement in whatever form they may be kept by Supplier including, but not limited to, relevant quality, inspection, test, accounting records, transactional records, financial documents, or written policies and procedures. Supplier will keep and preserve all such records and accounts throughout the term of the Agreement, and the Retention Period, subject to any applicable legal privilege, data protection or data privacy law or express legal restriction. These audit rights must be explicitly included in any subsequent subcontracts or agreements formed between Supplier and Supplier’s Supply Chain in connection with the performance of this Agreement.

35. Code of Business Conduct and Ethics

Supplier shall comply with the principles of Stein Seal’s Code of Ethics (the “Code”) (as amended from time to time), and Supplier shall periodically review the Code for changes. The Code forms part of this Agreement and is available electronically at <https://www.steinseal.com/> Supplier shall adopt a code of ethical business conduct (“Supplier’s Code”) suitable to its business, and in general conformance with the Code, and abide by Supplier’s Code. The Supplier’s Code should require that Supplier comply with all pertinent laws and regulations, and address Supplier’s policies including, but not limited to, workplace health and safety, labor standards, protection of the environment and resources, product safety and quality, export, human trafficking, and anti- corruption.

36. Packing and Shipping

- a. - b. Each shipment shall include packing slips identifying Stein Seal’s complete Purchase Order number, shipment date, an itemized list of contents using the classification identification of the Deliverables required by Stein Seal or the carrier, and such other items as Stein Seal may require. The markings on each package and shipping document must be such that Stein Seal can easily identify the Deliverables and any necessary lifting, loading, and shipping information, including the Stein Seal Purchase Order number, item number, date of shipment, and the names and addresses of consignor and consignee. The foregoing does not apply to shipments of classified materials, perishable items or temperature-controlled material. In each of these situations, Stein Seal will provide carrier routing instructions via Purchase Order or letter.

37. Liquidated Damages

- a. Supplier shall pay Stein Seal two percent (2%) of the price of the late Deliverables per calendar day for each day of delay (subject to a five-day grace period) as liquidated damages. The Parties agree that quantifying losses arising from Supplier's delay is inherently difficult, and further stipulate that the agreed upon sum is not a penalty, but a reasonable estimate of damages, based upon the Parties' experience in the industry and given the nature of the losses that may result from delay. The total amount of liquidated damages shall not exceed 10% of the price of the late Deliverables.
- b. In addition to liquidated damages assessed herein, customer fees incurred by Stein Seal due to late deliveries attributed to Supplier delay may also be charged back to the Supplier, if it is determined that the late delivery was solely the fault of Supplier material. Neither Stein Seal's right to refuse to accept non-conformance(s) Deliverables from Supplier in accordance with the "Quality Control", "Counterfeits", "Defects", and the "Inspection and Acceptance" Sections herein, nor any delay in Stein Seal issuing the notice of delivery delinquency to Supplier, constitutes a waiver of this "Liquidated Damages" Section. Supplier agrees to preserve the confidentiality, integrity and accessibility of Sensitive Information with administrative, technical, and physical measures that conform to generally recognized industry standards and best practices commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of Sensitive Information. Any information system belonging to, or operated by or for, the Supplier shall provide adequate security to prevent the intentional or unintentional disclosure of Sensitive Information to unauthorized persons; modification, destruction or loss of Sensitive Information; or copying of Sensitive Information to any unauthorized media.
- b. Supplier agrees to comply with all applicable laws that require the notification of individuals in the event of unauthorized release of Sensitive Information or other event requiring notification. Supplier shall notify Stein Seal of any security breach, physical or logical, committed by or against Supplier within 24 hours of discovery. At the request of Stein Seal and to the extent permitted by law, the Parties shall cooperate with investigations conducted by or on behalf of Stein Seal.
